

COMBICUT 250 / 1000

TOGETHER WE BUILD

TILE STONE AND PORCELAIN SAWS

COMBICUT 250/1000 VA | Model # 1188174 | 110V/60Hz, 1.75 HP

SAWS DESIGNED FOR LARGER TILE AND STONE

Precision cast aluminum, high-tech engineering, and manufacturing. IMER has created a saw which delivers superior accuracy, is lightweight, durable, and extremely reliable. Perfect for those jobs which are smaller in nature yet require cuts up to 40" in length.

✓ Precision water valve

✓ Complete with high flow water pump

✓ To support large format tiles slide the side table into place

✓ 10" Continuous rim porcelain blade included

✓ Included protractor up to 180°

Combi 250/1000
40" Cutting Length

✓ Equipped with a laser guide, make cuts quickly and accurately

✓ Long handle for easy reach and smooth pull through

✓ High impact poly water pan

✓ Integrated stand with wheel kit flips up and out of the way for transport

PLUNGE CUTS

Plunge cuts are smooth and precise as the cast aluminum cutting head pivots on a sealed bushing. "L" cuts for door jams are now quick n' simple.

ACCURATE 45° CUTS

When 45 degree cuts are needed, just tilt the travel beam. The overhead beam design provides a smooth accurate cut. Simple and accurate.

HIGH TORQUE, LOW RPM

The 110V motor on the Combi 250VA was designed specifically for this saw. High torque at a low rpm delivers fast, chip-free cutting performance.

Our heavy-duty motors are designed to perform all day providing consistent power on each start and cut.

INNOVATION

The cast aluminum protractor is the only truly accurate rip guide in the industry.

SIDE TABLE INCLUDED

The side table supports large format tiles.
