

PRESTIGE MAX

PROGRESSIVE CAVITY PUMP: SCREW PUMP FOR PUMPING AND SPRAYING APPLICATIONS

A MASTERPIECE OF PUMP ENGINEERING IN ONE COMPLETE PACKAGE

The Prestige MAX is a diesel-powered multi-purpose pump and spray machine with a built-in 6.3 cubic foot hydraulic mixer. The military spec control panel integrates all these functions in one location, allowing operators to quickly and easily learn to operate the pump. Known for its versatility, the Prestige Max is designed to mix and pump up to 3/8" aggregate with the Black Titan rotor / stator. Swap the Black Titan for the Pro Flow rotor / stator for fine grouts and spray applications.

ANTI-VIBRATION CONTROL

Best in class control panel complete with pressure gauges and indicators.

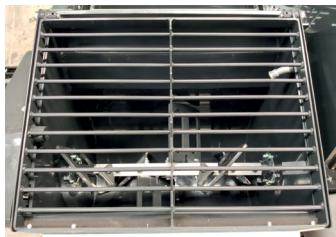

OPTIONAL COMPRESSOR

Add the optional compressor for spray applications

AGGRESSIVE & EFFICIENT

IMER's mixer paddles aggressively mix the material, this ensures clump free mud in the shortest time possible.
